Hello! I am an inspiring app developer, and I have expertise in multiple different languages including Python, C#, C++, Javascript, HTML/CSS and more. You can also connect with me on LinkedIn, or through email!

WORK EXPERIENCE

Code Ninjas
(May 23, 2023 - Present)
Programming Instructor

I taught numerous languages to K-12, including C# with the Unity Framework, JavaScript, Python, Web Development(HTML/CSS) and helped nuture K-12 students into creating their very own full fledged projects.

Sprouts Farmers Market
(December 23, 2021 - July 01, 2022)
Courtesy Clerk

Succesfully utilizing team skills to maintain the cleaniness of the business. I also assisted clients with various needs throughout the store.

EDUCATION

Florida Polytechnic University
(August 14, 2022 - May 25, 2026)
Computer Science
Sophomore

I currently am very active within the school, participating in being an secretary of the Math Club, where we tutored people in the maths and held different events. I am also an experienced VEX Robotics programmer, specializing in C++, where I was able to use complex object manipulation and utilize motors to have a working robot.
